

Daemen College Sustainability Panel Discussion Series

What Can and Should We Do about Climate Change Now?

7:30 p.m., Monday, October 15

**Daemen College
4380 Main Street, Amherst
Room 336, Duns Scotus Hall**

Free and Open to the Public

Keynote speaker

Ross Gould, Energy & Air Program Director, Environmental Advocates of New York (www.eany.org)

Panelists

- Bob Berger, UB Law Professor (retired)
- Samantha Legros, Business Major/Sustainability Minor, Daemen College
- Terry Yonker, Chair, Energy & Climate TF, WNY Environmental Alliance

Moderator

- Walter Simpson, energy educator & activist, Daemen College Instructor (www.energyreallymatters.com)

Scientists have known for decades that climate change is real and potentially catastrophic yet to a large extent we – as a society - have ignored and denied the problem and done little about it. This panel discussion will present a positive statewide and national climate protection policy and activist agenda. It will also address these questions: Have we waited too long to protect the future for our children and avoid the worst consequences of climate change? Is effective action -- proportionate to the threat we face -- possible given ongoing political conflict in our country and the power for fossil fuel interests? What should those who understand the danger and care about the future be doing *now*?

This panel discussion is presented as part of the Alternative & Renewable Energy Issues course in Daemen's Global & Sustainability program. For information on this exciting new major and minor, visit www.daemen.edu/sustainability. For more information about the panel discussion, wsimpson@daemen.edu or 839-0062.
